

Kevin Auchoybur

Quality Analyst

kevin.auchoybur@gmail.com

Profile

QA Analyst with 7+ years of experience, from functional testing to automation. I have contributed to demanding projects, from the private sector to the Princely Government of Monaco, making products used by thousands of users more reliable. My obsession: ensuring no critical defect ever reaches production.

Experience

Since 2022

QA Analyst

Asteria — Monaco

On behalf of the Princely Government of Monaco — MonGuichet.mc Portal:

- Writing and executing test plans
- Identifying and tracking defects
- Quality reporting
- Running regression tests and final validation before production release
- Cross-functional collaboration

2017 – 2022

QA / Automation Engineer

Inetum — Aix-en-Provence/Marseille

During my various assignments for Inetum's clients:

- Reviewing deliverables and defining the test strategy
- Defining requirements and preparing environments and test data
- Designing and executing functional and automated test cases
- Defect management in collaboration with the development team
