PROFILE

QA Analyst with 7+ years of experience, from functional testing to automation. I support demanding projects — from the private sector to the Princely Government of Monaco — making products used by thousands of people more reliable. My obsession: that no critical defect ever reaches production.

EXPERIENCE

QA Analyst — Asteria · Monaco Since 2022

MonGuichet.mc — Princely Government of Monaco

- Leading the testing activities on an online public-services portal
- Analysing requirements and functional specifications
- Designing and executing test cases
- Validating features before production release
- Identifying, qualifying and tracking defects
- Collaborating with technical and business teams

QA / Automation Engineer — Inetum 2017 – 2022

Aix-en-Provence / Marseille

Powercard — Hightech Payment Systems

- Designing and implementing automated tests on payment-method management interfaces
- Automating critical user scenarios (card issuance, management and usage)
- Checking that UI journeys work correctly across various use cases
- Analysing test results and identifying defects
- Contributing to feature validation before production release

SYRCA — Carsat Sud-Est

- Designing test scenarios covering complex business cases (career data, entitlement calculation)
- Checking data consistency and integrity
- Detecting defects affecting processing reliability
- Tracking fixes in collaboration with the technical teams
- Validating releases before deployment
