PROFILE

QA Analyst with 7+ years of experience, from functional testing to automation. I support demanding projects — from the private sector to the Princely Government of Monaco — making products used by thousands of people more reliable. My priority: making sure no critical defect ever reaches production.

EXPERIENCE

QA Analyst — Asteria · Monaco Since 2022

MonGuichet.mc — Princely Government of Monaco

- Leading QA activities on the Monegasque Administration portal for accessing online services
- Writing and executing ~100 test cases (Squash TM)
- Identifying and tracking 100+ defects (Jira)
- Automating 80% of critical user journeys (Selenium)
- Validating releases across DEV / UAT / PRE-PROD before production

QA / Automation Engineer — Inetum · Aix-en-Provence / Marseille 2017 – 2022

Powercard — Hightech Payment Systems

- Designing and automating UI tests (Protractor)
- Automating ~40 critical scenarios (card issuance, management and usage)
- Testing on sensitive environments (UAT, PRE-PROD) with payment data
- Reducing manual testing time and critical production defects

SYRCA — Carsat Sud-Est

- Designing ~50 test scenarios on complex business cases (entitlement calculation)
- Detecting and qualifying ~80 defects
- Checking data consistency and integrity across environments
- Reducing business-rule defects by 20%
